

## Greenland Is Melting "Back Door Stranger"

Visit "[Back Door Stranger](#)" on MotoLyrics.com

My baby she done somethin, never done before  
When I come home, had a pail up on the floor  
Won't you tell me woman, who's that left here while  
ago?  
When I come home, who's that went out my back door?

Well it must have been a stranger, he did not  
understand  
Went out my back door, padlock in his hand  
Now won't you tell me woman, who's that left here while  
ago?  
When I come home, who's that went out my back door?

Well I ain't gonna use no ice, gon' buy me a frigidaire  
Know that'll keep the ice man away from here  
Now won't you tell me woman, who's that left here while  
ago?  
When I come home, who's that went out my back door?

Well it must have been a stranger, he did not  
understand  
Went out my backdoor, hat in his hand  
Now won't you tell me woman, who's that left here while  
ago?  
When I come home, who's that went out my back door?

Well I'm gonna buy my groceries, bring 'em home  
every day  
I know that'll keep that groceries boy away  
Now won't you tell me woman, who's that left here while  
ago?  
When I come home, who's that went out my back door?

Well it must have been a stranger, did not understand  
Went out my backdoor, the passage in his hand  
Now won't you tell me woman, who's that left here while  
ago?  
When I come home, who's that went out my back door?
