

Subdudes "Need Somebody"

Visit "[Need Somebody](#)" on MotoLyrics.com

I've been drivin' this truck with a broken heart
Can't stop drivin' once I stop it might never stop
Engine roar down from Detroit, Michigan
Engine roar and roar, won't let no silence in

'Cause I need somebody, need somebody
Need somebody, I need somebody

Coffee girl could be the one I need
But all she can see is breakfast number one, two and
three
Everybody, everybody is a stranger to me
But nobody, nobody could be as strange as me

When I need somebody, need somebody
Need somebody, need somebody

Well they don't have to be somebody new
Don't have to be a love so true
Could even be somebody just like you
I need somebody who needs somebody too

I need somebody, need somebody
If you ever need somebody, need somebody

I need somebody, need somebody
Need somebody
