Next to Me by: The Subdues

You can travel over oceans and around the world
You can follow every notion that you can afford
In some day when you're feeling alone
And your thoughts turn back toward home
Let them stray--back my way
Oh I hope you know

Chorus:

Your home is right here next to me
Just as long as you want it to be
Your home is right here next to me
Next to me
In some night if you might hear me scream
As I'm caught in the arms of a fearful dream
Where I stand guilty of -- crimes against love
And I'm losing you
That's one dream I would never want to come true

Chorus

In the arms of those who love you
That's where you'll find your home

Chorusis
