Get away from the window.  
The D.S. are outside.  
The little packets in our pockets  
Stuff we gotta hide.  
Sitting in a corner of a disco  
Mouth stuck in a bag.  
It's hard to fake the high intake.  
It turns your brain real bad.

Crush a barb put it in a syringe.  
Stick it in your arm.  
Let the feeling crawl to your head.  
It won't do you no harm.  
Sniffing sulfate up my nose  
Doing it for a joke  
It makes the world spin so fast.  
Things go better with coke.
