It's getting out of hand they don't understand  
they never ever will they never  
ever can  
I don't wanna live if I can't be free  
the system kills but it won't kill me  
i don't wanna die  
can't run away come back someday  
cos it won't change  
whatever you say  
fear and guilt up to the hilt  
they can't escape from the walls they built  
i don't wanna die  
they gave me a gun and told me to run  
defend your country from the atom bomb  
i said why? they couldn't reply  
the system kills but I don't wanna die  
i don't wanna die
