You, you're driving me insane  
But you know there's something wrong with my brain  
My head is really in a whirl  
Where you look just like a normal girl

Chorus:

But you don't really care  
It happens everywhere  
You don't give a shit  
Forget about it, forget about it  
Forget

I was living in a plastic bag  
I didn't know what to do  
I didn't know she was a slag  
Well what would you do?  
What would you do?

Chorus

I didn't know I killed her  
I was out of my mind  
She only wanted my money  
But she made me blind  
She made me blind

Chorus
