

## Subhumans "Parasites"

Visit "[Parasites](#)" on [MotoLyrics.com](https://MotoLyrics.com)

The government are real good to us  
They crowd in their shelters and let us die  
The nuclear holocaust won't last long  
White turns to black in the sky

[Chorus]  
You build your demolition war  
What the hell are you fighting for?

You keep your peace with the starving countries  
The Cambodians have to be fed  
But can't you see we've got our problems?  
You're taxing us to buy tons of lead

[Chorus]

Labour can take the businesses over  
Because they've got the worker's rights  
A choice of three for democracy  
And they're all parasites

[Chorus]

Parasites - taking over the country!  
Parasites - taking over your home!  
Parasites - taking over your mind!
