### "Religious Wars"

do you believe in the afterlife?  
termination with a rusty knife  
religious wars no reason why  
what a glorious way to die

chorus  
in the name of god they left you to die  
religious wars there's no reason why  
they left you to die

the ultimate excuse is here  
die for a cause, religion is fear  
fear of the threat of something unreal  
abdicate the way you really feel

[chorus]

in the darkness of death  
there's no light in your eyes  
a cross in your grave  
your time has arrived

[chorus]
