[Sisqo]

Can I play for you baby
Ay yo Woody help me out
Ay yo Jazz can you chill for a minute
Nokia come on uh uh uh yeah
You like that I'mma sing this song for you
Listen

[Sisqo]

Last night we had an argument
Afterwards I'm feeling pretty bent mmhmm
Then I took a drink and I didn't think
What was in store for me
So I wrote a letter
And dropped it on the bedroom floor
I never felt this way before no
Grabbed my coat and closed the door
Baby I'm sorry

[Bridge]

(Baby I'm sorry)
Sorry for what I've done
Will you forgive me
And let me be the only one
Cause' you are

[Chorus]

You are everything
And I will give
You anything
I'm sorry for what I've done
I wanna be your only one
Girl I
Apologize for all your tears when you cried
Sorry for what I've done
I wanna be your only one

[Jazz]

Girl I apologize for all the tears and all the lies
And if by chance
Just one more change

I swear I'll be the epitome of a good man

[Bridge]

Baby I'm sorry
Sorry for what I've done
Will you forgive me let me be the only one
Cause' you are

[Chorus]

You are everything
And I will give you anything
Sorry for what I've done
I wanna be your only one
Girl I apologize for all your tears when you cried
Sorry for what I've done
I wanna be your only one

[Nokio]

You are everything and everything is ya
You are everything, girl you everything I got
You are everything and everything is ya
You are everything, girl you everything I got
You are everything and everything is ya
You are everything, girl you everything I got
You are everything and everything is ya
You are everything, girl you everything I got

[Chorus]

You are everything
And I would give you anything
I'm sorry for what I've done
I wanna be your only
Girl I apologize for all the tears when you cried
Sorry for what I've done
Now I wanna be your only one

[Sisqo]

(I'm so sorry, said I'm so sorry baby)
