It's not about the money

[chorus]2x

You see its not the [money] (5x)

You say it aint about the [lovin] (5x)

You be on the alone its [nuthin] (5x)

If its not nuthin

Girl its gotta be somethin

Slippin fallin slippin

You must really love me

[Lil' Zane]

Told so many lies

By so many different guys

Its hard to see the truth when in front of your eyes

I'm from a city of conflicts

Criminals and convicts

Livin on the run baby

Only havin fun baby

She was just a friend so I never dug her

A young thug and so it wasn't in my heart to love her

You say you love me regardless

You was young and I was heartless

We both said it

I was hard headed

Everything you said went into a ear and out another

I couldn't understand you wanted me to be your lover

You took time every night to write me love letters

And you used to whisper in my ear nobody does it
better

And did I mention it was long letters

I like they way you squeeze in them dungaries

But the thongs betta

And you believe that I'm not there

Till it make it feel like if you leave then I won't care

Yeah

[chorus]

[Lil' Zane]

All my life I been goin through depression

More of the love and less dressin
I'm tired of guessin
Tell me if you want affection
You make a thug feel love
You head rushin
And I can't seem to get enough
Can I touch somethin?
You're like an angle wit some wings sent to guide me
The law try to lock me down but you hide me
Be beside me strapped for war soldier guide me
I'm tryin to be wit you
Aint a army that can stop me
Told me team the dream and automatically they knock
me
Said ya beat me down cause I'm young I'm like "watch
me"
I love winnin, ice linen and keep my dubbs spinnin
Love women, street corners and I'm gone keep on
bendin
Wit you its no pretendin
And even at the beginin I knew that you was wit it
Even tho I neva hit it
Forgive me for the times I bullshitted
And now I'm all yours
Baby you did it

[chorus]4x
