The sun shines at night
We're in love and it feels so right
The sun shines at night
We're in love and it feels so right

Remember when we weren't afraid of the dark?
From my street to your backyard with your hand and
mine hours apart
You were the beating of my heart.
We hold on tight, We had the summer of our lives, but
your doubts, they hold strong and my hope it burns too
long.
(So don't go)

The sun shines at night
We're in love and it feels so right
Where-ever we go, we'll be alright
The sun shines at night

Take the green line to the red, at the station we'll
forget, the crowds of people, the turndail spins nothing
matters because your here again
And we hold on tight, We had the summer of our lives.

The sun shines at night
We're in love and it feels so right
The sun shines at night
Where-ever we go, we'll be alright
(So don't go)
The sun shines at night
We're in love and it feels so right
