Better days have been found in hell,
I am looking for answers to questions,
I cant seem to find them,
I try to turn to you but you are lying there,
Asleep in your bed,
I wonder how you can sleep,
After you just killed part of me.

Just because you didnt like me,
Just because you are lonely,
Doesnt mean you have to destroy me,
Doesnt mean you have to destroy the only thing,
That was meant for me.

I cant sleep I cant eat,
I am scared for you,
You say have no fear and you just mess up my hair,
I know I cant run, but I want to leave this place,
I know it wont happen but right now,
I never want to see your face.

Just because you didnt like him,
Just because you are lonely,
Doesnt mean you have to destroy him,
Doesnt mean you have to destroy the only thing,
That was meant for me.

Pull the trigger,
Kill a person,
Makes the killer a hero,
It doesnt matter we can make changes,
Learn to see me as someone else would,
Then we can stop all of these dangers.

Just because you dont like someone,
Just because you are lonely,
Doesnt mean you have to destroy them,
Doesnt mean you have to destroy the only thing, that
was meant for me.
