I was in Love with you
I was in Love with you
Your distant eyes
Insincere smile
And hollow refrain
Yer blues

I was in Love with you
I was in Love with you
You say you might
Come by my window
The car's parked outside
Where are you?

True Love
True Love
True Love
All night
You're letting it go
Where did it go?
Where did it go?

I was in Love with you
I was in Love with you
It's Ladies Choice
Bring on the boys
The car's parked outside
Waiting
Waiting On you
Where did it go?
