Oh Mama, ain't no time to fall to pieces
He has arrived, he has arrived
There by the Grace of God go I
I don't know what they mean
I don't know what they mean and I say
Ah?

Oh My Love, now I can believe you're leaving
Seen through your eyes, seen through your eyes
There by the Grace of God go I
I don't know what they mean
I don't know what they mean and I say
Oh?

I hear the rapture's coming; they say he'll be here
soon
(They say)
Right now there's demons crawling all around my
room
(All around my room)
They say he lives within us; they say for me he died
(They say)
And now I hear his footsteps almost every night
(Almost every night)

Oh Children, this is where they come to take me away
from here
I don't know what they mean
I don't know what they mean and I say
Ah?

Love that way
Be done
Love that way
Be done
Love that way
Be done
Love that way
Be done
