"Look Around"

Is there something wrong ?
Will this law last for long..
Is there something wrong ?
Don't look around I've found

Have you ever watched a sad guy in the eyes ?
Why can't you take your heart and jump to the other
side ?
A nightmare's not a bad dream
You want me to believe
You're the one who make the dreams
You want me to believe
You're the one who make the dreams

Have you ever given a smile to a hungry tramp ?
Their minds are broken, you're the one who could
mend
I wonder what could I do
They smile to me and don't care of you
They all teach me and don't speak of you
Let's destroy the elite
It won't be a dream in the night
