Gone, in my room
Trying this life again
Gone forever
Not so long you think

I cant take this
Any longer
And i
Dont want to face the world
I cant take
Your ridicule
I cant take your selfishness

Dont wanna take this
Dont wanna break this
Dont wanna burn bridges Ive already
Broken
Dont wanna hurt you
Dont wanna deal
Dont wanna have to
Stare this in the face

Safer on the streets than here
With you
In the end what do I do?

I could sit here forever
Letting my anger build up now
But will I survive it
Can I take it
Still today
Unsure what Ill do
I take a step into my mind
Try to think things through but
All I can do is cry
All I can do is try

In the end what do I do
Do I just sit here waiting
For you
What am I to do

Just here
Coping with the pain
And you
Sit here pouring salt in open wounds

Dont wanna take this
Dont wanna break this
Dont wanna burn bridges Ive already
Broken
Dont wanna hurt you
Dont wanna deal
Dont wanna have to
Stare this in the face

Why couldnt you ha ve been better
I thought I knew u well enough
I thought it could go one forfever
You had to screw it up
I did a lot of things
You pulled the last strw
And Im not taking this

Dont wanna take this
Dont wanna break this
Dont wanna burn bridges Ive already
Broken
Dont wanna hurt you
Dont wanna deal
Dont wanna have to
Stare this in the face

Undecided Anger
Taking me over
Now
And I
Need it all to
Disappear
