Could this be magic
My dear
My heart's all aglow
Could this be magic
Loving you so.
Could this be magic
My dear
Having your love
My prayers were answered
So far from above.
I thought it would be
Just a memory
To linger my heart in pain
But too much pride
I opened up my eyes
And I'm with you dear once again
Could this be magic
My dear
Having your love
If this is magic
Then magic is mine.
Could this be magic
Then magic is mine.
