See the Shadow of a Stranger  
Turn around and your Lie's in Danger  
This crazy world is in a grave Situation  
Check the Children, are they sleeping ?  
Will they wake from the Sirene's screamin ?  
Don't blame the Heavens this Man's Situation

[Chorus]

Shocker ! Shocker !  
We're led like Lambs to the Slaughter  
Shocker ! Shocker !  
We're in the Fire and it just gets hotter

See the light it's the City burnin'  
The homeless Shudder cause the leaves are turnin'  
The Winter's coming with it's cold compression  
Cause God's the only Witness on File  
Man's Inhumanity to Man's in fashion

[Chorus]

We will have the Power  
We will have the Glory  
In our shining Hour  
We will write our own Story

We will have our own World  
We will have it our Way  
Standing like a Tower  
The Sun will shine on our Day
