All around the world and all I wanna be is next to you
But give me one more chance and I swear I will be
kissing you
Been there, done this and that I'm sick of it
The one you love you dream about can never touch I
want that

This attraction is weighing heavy on my head
The satisfaction baby of you loving this man
And I
Can't live without it
And all the million ways I'd never think to stray
Girl, you're acting much to great for me to see
My life with anyone else

All around the world and all I wanna be is next to you
But give me one more chance and I swear I will be
kissing you
Been there, done this and that I'm sick of it
The one you love you dream about can never touch I
want that kiss

I want that kiss

Oh my god it sucked the air out of the room
I point the blame of this action on you
You get my heart to start pumping and the jokes start
dropping on
I really thought that you knew

Ain't nobody, is ever gonna love you better
Seal it with a kiss it's my heart that's in this letter

All around the world and all I wanna be is next to you
But give me one more chance and I swear I will be
kissing you
Been there, done this and that I'm sick of it
The one you love you dream about can never touch I
want that

Ain't nobody, is ever gonna love you better

Seal it with a kiss it's my heart that's in this letter

All around the world and all I wanna be is next to you
Give me one more chance and I swear I will be kissing
you

Been there, done this and that I'm sick of it
The one you love you dream about can never touch I
want that kiss

I want that kiss

I want that kiss
