It's ten a.m. and I just woke up  
Walked to the window and opened the shades up  
Sun so bright that I can hardly see  
but I'm a black man, so I pass on a tan  
Dip to the bathroom take me a shower  
but first called up my girl told her be ready in an hour  
I was still a bit tired man I'm laggin'  
Grabbed the toothbrush to kill the dragon  
Lord have mercy great day in the morning  
Turn on the water and I'm stretchin and yawnin  
tryin to get a blender to hot with the cold  
Man I'm young but why I feel so old  
get it just right then step to the mirror  
Rubbin my eyes to make my vision get clearer  
Everything looks a-o.k.  
and today is gonna be a lovely day

Chous:  
(a lovely day)  
lovely day  
lovely day  
lovely day  
lovely day

So I jet out the crib and hop in the benzo  
Today is my girl's day can all of my friends go  
just me and her top down on the highway  
If you're gonna do it then why not do it the fly way  
First a car wash next the barber shop  
Then off to my girl's crib that's my next stop  
A dozen roses a card and candy  
I'm a true mackadocious Mr. Romanty  
She hopped in and she asked where we're goin'  
Yo we like a twig in the Nile we just flowin'  
Maybe to the beach or maybe hook up a picnic  
but yo it doesn't matter cause today we just kickin' it  
I threw in my homemade slow tape  
and off to the beach for some beautiful landscape  
man this is a bonafide lovers delight  
got the ocean on the left the mountains on the right  
I said yeah cause that's the way I was feelin'

free as a bird got the clouds for a ceiling  
I wish that I could press the gas and fly away  
Today has been a lovely day

chorus

It's dark outside now and it's gettin' kinda late  
the date was great but here comes the moment that I  
hate  
It's too bad a lovely day has gotta end up like this  
a wave goodbye with a hug and good night kiss  
Mmmm I said good night my lovely  
I said mmmm good night my lovely  
She said what you gonna leave me all alone  
Oh I forgot to tell you there ain't nobody home  
Now y'all know me I'm a real cool guy  
but inside things was kinda like the fourth of July  
We walked inside I said, "Hello there miss"  
then she gave me a kiss oh you want some of this?  
Unh passion building mentally bondin  
Slowly I caress her and she's respondin  
Close your eyes and keep thinkin of me  
Here I come girl
