Lying to myself about where I need to be  
Seems so insane  
Running 'round in circles til my feet would bleed  
I guess I love the pain

I don't wanna be a star  
Don't wanna be your god  
We came together cause you see it too  
And I'll never look away  
When the sun is in my face  
The best part of me is in the music I give to you

It's not as dark inside as it used to be  
Shadows still remain  
The circus that was my life hid the truth from me  
Living with the shame

I don't wanna be a star  
Don't wanna be your god  
We came together cause you see it too  
And I'll never look away  
When the sun is in my face  
The best part of me is in the music I give to you

And when that music comes to me  
Dancin' in my head, dancin' in my head you know it  
And now that spirit live in me  
I'll hold it til I'm dead, I'll hold it til I'm dead and you  
know it

I don't wanna be a star  
Don't wanna be your god  
We came together cause you see it too  
And I'll never look away  
When the sun is in my face  
The best part of me is in the music I give to you

I'm gonna give it to you
