diamond eyes, shiny black raven hair
hypnotized, I could only stop and stare
like an apparition she belongs to me
I never saw a woman with such mystery

I will never let you go
cause follow

light up my life
remember me, remember you - oh lord

voices through my head
like a distance choir
i had never known
such a lust for desire
then again
I was just a mortal man
devil or angel
what I wanted her to be

I will never let you go
cause I follow

light up my life
remember me, remember you - oh lord
