It was so odd  
The way we came about  
The way we locked out horns  
We fell apart and glued our hearts together  
It was so fun  
The way you laughed at me  
'cos everything I said  
It always came out wrong

And we fell asleep  
'cus there's nothing else left to do  
And I couldn't keep what's inside  
I had to show you

I was a lostboy that was found  
Drowning underwater  
Smothered by the pressure  
I was a lost toy now I'm found  
You patched me back together  
Sewing up the leather on my arms  
On my arms

It was you and only me

It was so hard. To see you shivering  
To see you frosting up  
O we locked our arms and shared the warmth together  
It was so dark  
But you just shrugged it off  
You turned to me and said thank god we're going  
home

And we fell asleep  
'cus there's nowhere else to go  
And I couldn't keep what's inside  
I had to let you know

It was you and only me

Could you  
Suffer  
Waiting

Longer  
Lonely  
For me  
We could make our way though the mire

It was you and only me.
