"Man On The Moon"

Visit "[Man On The Moon](#)" on MotoLyrics.com

full moon in july - as I remember
it was an ordinary night
but feeling good

I saw you dancing - in the spotlight
I lost my self control
you stole my soul

I'm back on the road again
back on the road again

like a man on the moon
I'm watching you
baby blue
I'm over you

I make my own rules
no chains on me
independence is my style

hanging on the wire
dancing with desire
you c'mon like a demon storm

I 'm back on the road again
back on the road again

like a man on the moon
I'm watching you
baby blue
I'm over you
