I'm over here in the sand
A foreign face in foreign land
And every hour is like a year
I'm growin' old while over here
We're all for one and one for all
Waitin' for the sky to fall
And when it hits some will die
But if I don't you'll hear me cry
Tell me where is Lucky
Lucky was my only friend
I never met the enemy
Still I suppose he's just like me
He loves his kids he loves his flag
And fits inside a body bag
And over there on the other side
The other guys can't sleep tonight
The fire's rainin' it's rainin' down
And through it all I hear the sound
Tell me where is Lucky
Lucky was my only friend
And if you wanna' tell me something
Tell me why we couldn't stay together
