"Easy Livin'"

this is a place i have never known before
it's called easy livin'
this is a place i've never seen before
and i've been forgiven
easy livin' and i've been forgiven
since you've taken your place in my heart
somewhere along the lonely road
i have tried to find you
day after day on that windy road
i have walked behind you
easy livin' and i've been forgiven
since you've taken your place in my heart
easy livin'
wishing my whole life away
easy live'
ready for my happy day
and some easy livin'
