

Dickies, The

"Epistle To Dippy"

Visit "[Epistle To Dippy](#)" on MotoLyrics.com

look on yonder misty mountain
see the young monk meditating rhododendron forest
over dusty hills i ask you
what's it been like being you
through all levels you've been changing
getting a little bit better no doubt
the doctor bit was so far out
looking through crystal spectacles
i can see i had your fun
looking through crystal spectacles
i can see i had your fun
doing us paperback reader
made the teacher suspicious about insanity
fingers always touching girl
through all levels you've been changing
getting a little bit better no doubt
the doctor bit was so far out
looking through all kinds of windows
i can see i had your fun
looking through crystal spectacles
i can see i had your fun

looking through crystal spectacles

i can see i had your fun

looking through all kinds of windows

i can see i had your fun

rebel against society

such a tiny speculating whether to be a hip or

skip along quite merrily

through all levels you've been changing

elevator in the brain hotel

broken down but just as well

looking through crystal spectacles

i can see i had your fun
