The first thing I did wrong
Was hook up with a girl that wasn't grown
She looked like a woman but her mind worked like a child
For 'cause of her girlish qualities that made me smile
The outside never showed me what was in
And her ending didn't look like it began
Now I know and it's for sure
That you can't change a girl into a woman, yeah
And I'm okay, make sure, you're okay
No matter how long it takes
Make sure that you're okay
And if she goes away
Make sure that you're okay
Now that I got out, I'm just lookin' out
Trying to show you the way
To be okay
I hate to see you make the same mistakes
So avoid the things that 'cause your heart to break
From a hurting brother, I ain't trying to hate
But if you mess around with her, she'll seal your fate

You'll never see it coming till it's there
And you'll find out that she doesn't really care
And it's real, what I feel
You can have her ass, I don't want her over here
I'm okay, make sure, you're okay
No matter how long it takes
You better make sure, you're okay
And if she goes away
Make sure you're okay
Now that I got out, I'm just lookin' out
Trying to show you the way
To be okay
If you decide to stay it's alright
But take heed to what I say you'll be alright
If you decide to go then go now
Don't look back because she'll only bring you down
Oh, bring you down
Bring you down
Sing it one time
Okay
Make sure, you'll be okay
It's okay, okay
Make sure, you'll be okay
It's okay, okay
Make sure, you'll be okay
Not that I get out, I'm just lookin' out

Oh, okay

I'm okay, make sure, you're okay

No matter how long it takes

You better make sure, you're okay

And if she goes away

Make sure that you're okay

Now that I got out, I'm just lookin' out

Trying to show you the way

To be okay

I don't know

Soon as I'm recognized

I'm okay, make sure, you're okay

How long it takes

Make sure that you're okay

And if she goes away

Make sure that you're okay

Now that I got out, I'm just lookin' out

Trying to show you the way

To be okay

Okay, okay

Gonna make sure
