"See My Way"

Visit "[See My Way](#)" on MotoLyrics.com

i know i can't see may hand
and i can't help it if i stumble
all of those things that are sad before me
wanna see see my way

need a friend to help me through
when i'm gone pick
my body up and carry me
home take me home

see the point of watching my life
i can see it's been so wrong
climbing mountains without even looking
wanna see see my way

need a friend to help me through
when i'm gone pick
my body up and carry me
home take me home

i know i can't see may hand
and i can't help it if i stumble
all of those things that are sad before me
wanna see see my way

need a friend to help me through
when i'm gone pick
my body up and carry me
home take me home
