"Toxic Avenger"

Out of the rust and into the slime
Everybody knows that he's here for mankind
Toxic Avenger
Would you believe - a mouse to a man!
No one from this planet can realize his plan
Toxic Avenger, Toxic Avenger

Out of the dark and into the light
Mercilessly devastating his enemies, turning wrong to
right
Toxic Avenger, Toxic Avenger

But nobody loves him and he's such a lonely man
All they ask from him is to guard this promised land

Out of the rust and into the slime
Everybody thinks that he's out of his mind
Toxic Avenger
