hey ho hey ho there's something i don't know
like who i am or where i go
we're on this climb we'll be there for some time
there is no reason i can find
wagon train what's my name
can you guess my crime
wagon train ease the pain
and leave the world behind
wagon train head 'em up ehoh
a brave new world for all those boys and girls
a universe for us to roam
they cast us out and left us with no doubt
they're never gonna bring us home
