Dog man star took a suck on a pill
And stabbed a cerebellum with a curious quill
Europe, America, Winterland
Introducing the band

Chic thug stuttered through a stereo dream
A fifty knuckle shuffle heavy metal machine
The tears of suburbia drowned the land
Introducing the band

So steal me a savage, subservient son
Get him shackled-up, bloodied-up and sucking on a gun
I want the style of a woman, the kiss of a man
Introducing the band

And as the sci-fi lullaby starts to build
See them whipping all the women, cracked
governments killed
Oh, let the century die to violent hands
Introducing the band

Introducing the band
Introducing the band
Introducing the band
