she is a natural killer
she has a strange disguise
and she is cold as vanilla
she has that look in her eyes

she, she hasn't any feelings
and she got nothing on her mind
she is a natural killer
she is the thorn in your side

she is a natural killer
she has a strange disguise
she as sweet as vanilla
she has that look in her eyes

and she, she hasn't any feeling
and she got nothing on her mind
she is a natural killer
she is the thorn in your side

she, she hasn't any feeling
she got nothing on her mind
she is a natural killer
she is the thorn in your side

thorn in your side
thorn in your side
thorn in your side
