Angel, don't take those sleeping pills, you don't need them

Though it's just time they kill

Angel, give me your sleeping pills, you don't need them

Give me the time they kill

You're a water sign, I'm an air sign

Gone, gone to Valium, could you get me some?

You're a water sign, but I'm an air sign

Too siamese to catch the leaves from those trees

Angel, don't take those sleeping pills, you don't need them

Though it's just time they kill

You're a water sign, I'm an air sign

Pumped up with Valium, could you get me some?

You're a water sign, I'm an air sign

With sweet F.A. to do today, with sweet F.A. to do today

Sweet F.A., sweet F.A.

Sweet F.A.

Angel, don't take those sleeping pills
