Kill the day, I see my starring mode  
take away,  
I watch the skyline, for him to come  
And when he comes alone, we'll be gone.  
And we'll go into the city, into the light  
We'll be there in the headlines,  
in care of the night  
Cause this is the big time  
this is the way  
Now he's in the big time  
he'll show you the way  
This is the big time  
This is the way  
Now he's in the big time  
And your in the way...
