Cars are crawling in the microtowns  
Women hide the decay  
Boys bounce to the disco sounds  
Lights go inside with the grey

Gas clouds paint the cityscapes  
Lovers whisper the lies  
Hip chicks, drugs and fornicate  
But in my head I'm up in the sky

On a UFO, I'm out there  
On a UFO, I'm out there  
And I got the future in my eyes

Blank faces are televised  
TV channels have changed  
Got no plans cos socialites  
Are just relocating my brain

On a UFO, I'm out there  
On a UFO, I'm out there  
And I got the future in my eyes  
On a UFO, perceive me  
On a UFO, you see me  
Heading for the skyline into the night

Does anybody feel like me?  
Does anybody wants to see?

On a UFO  
On a UFO  
On a UFO  
On a UFO, here we go  
Like the satellites, I'm out there  
In the southern sky, I'm out there  
And I got the future in my eyes  
On a UFO
