"Your Creations"

Visit "[Your Creations](#)" on MotoLyrics.com

So wake from ignorance and take up shield

For your creations, for your creations [x2]

Protect your blood

A sick, sad, addiction to the ones who hold such
innocence

And to the heart that beats with my blood

I am your shield

For your creations, for your creations [x2]

So pick up and bare your arms

Fathers prepare your shields [x2]

Slaughter the sick

Sick men of malice intent who feed off our young

Your peers to prey, your peers to prey

So crush the convicted predators to prey

So wake from ignorance and take up shield

For your creations, for your creations

Slaughter the sick, your peers to prey

Slaughter them [x4]

And to the one that bleeds with my blood

I am your shield

And to the heart that bleeds with me blood

I am your shield
