(*talking*)

Yeah man, all I been doing
Is keeping it real in these streets
And I exposed some niggaz, that wasn't keeping it real
Now everybody think I'm tripping

[Hook]

Now I don't care, what you say about me
Garden City boys, surrounding me
And if y'all niggaz, was fucking with me
Acres Home niggaz, be wilding

[Lil Mario]

Many men gon die, I'm spitting this shit so eloquently
Got the game I got, from my niggaz locked up in the
Penitentiary
You know I roll, with niggaz that'll bust and do no
talking
We on this block, 24-7 creeping late night stalking
Put it on your mind, when you see these real niggaz get
it
We on these drugs all day, bitch come on and fuck with
me
And I'ma let this 40-glock, get shit straight like a perm
And I will bust over money you ain't paid, and I done
earned
And we been wilding all the time, around that Acres
Home
Tattoos on bodies, representing where them killas
roam
And I scream it like I mean it, cause I'm real with mine
And we gon have to shut shit down, nigga it's all the
time
And I don't wanna hear, ah shit that nigga back again
Cause I'm Lil Yo a soldier, straight built for battling

[Hook]

[Smack Water]

I ain't gon play with these niggaz, I'ma beat one of you
hoes up

And if that don't work, I'ma heat one you hoes up
Here's some advice you need, to keep your mouth shut
Before I use mine to eat, one of you hoes up
Don't take a cheap shot, on me put an address on it
Be a man you made your bed, go on and rest on it
Your chest gon rip, if you don't put a vest on it
Oh my bad cop killas, go through a vest on it
If we ain't grew up together, we really ain't homies
Stay out my mix, up close and personal you don't know
me
I popped up, but got the plot and to stop it
These other rappers feeling me, in they hearts and
pockets
You really lucky, cause I got partnas that don't give
warnings
Have one on your hip, police coming they still dumping
You really need to analyze, who you idolize
Most of 'em ain't gon ride, and end up giving you a lot
of time
