Barrier Break [Yeah][Wha?]  
Barrier Break [Yeah][Uh?]  
Barrier Break [Wha?][Wha?]  
Barrier Break [Yeah][Wha?] (echo)  
Yeah

Barrier Break a lost soul a loaded weapon  
These empty shells they rain hell the dark beckons  
My minds vision is a time bomb tickin'  
It's my life long mission, when the mic's on rip it!

I'm only human and under the gun I'm buck-wild  
This definition of living is fucking hostile  
Cock the heat back  
No time to sleep black  
Ring your alarm when I drive by your speak stack

The venue crumbles around us, you know my trigger  
pulled it  
We in the trenches and all of my soldiers sweatin'  
bullets.  
Ghetto technology mixed with pain and poverty  
I'm from where the bottom be, raising the bar, follow  
me!

Fire the technique break barrier sound  
The rhythm serves moltov cocktails swallow down.  
Children of the next millenium - strapped mentally  
strong,  
Come on into the new dawn.

(2x)  
I pull the trigger(?) when I pierce through the minds'  
Teflon.  
Come on into the new dawn.  
Reap and bleed the beat till we're dead and gone  
Come on into the new dawn.  
The next shit time to innovate detonate bombs  
Come on into the new dawn.  
Loud pitch, rip down the roof, bitch. Yo it's on  
Come on into the new dawn.

...

Don't stop get it get it  
I know my soldiers with it  
The rhythm flowing through your veins  
I know you love it, live it  
Don't stop get it get it,  
Where's all my HUMAN with it?  
It's time to rip this bitch apart  
If you got fire set it

Keep that heat blasting  
Let the speaker lash it  
Vinyl drive-by  
Vocab with attachments  
Streets to the sticks,  
We forward advancing  
Any opposition I'll burn through that plastic.

Y'all credit-card bastards, your counterfeit bills  
I never had shit, had to build my own, for real.  
And we keep the crowds hopping like they're fucking  
hydraulics  
The sound infiltrate you with the Dieseltronics.  
From the warehouses, underground, worldwide blazing  
It's the H-U-M to the A-N that make that damn roof cave  
in.

You gonna fuck with the clique,  
Off of the hip,  
Off of the clip,  
That's how it gets  
Messian, Barrier Break in the door and smash shit.
