Its three years gone / still i rattle on / This crazy
world is moving fast / Here I am / guitar in hand /
I wonder how long this will last / I wish you could
see / what this means to me / It means more than I
could ever say / So I close my eyes and I think real
hard / Back to the days spent on the school yard /
and how many times I wished that this were true / that
this were true / it makes me smile / To the famous
three / who never believed / I'm singing this song
to you / look at me now / I'm so proud to be / right
here, right now / a part of this
