"Shining Star"

I drive by your house its late / Your silhouette /
In the window / I want to stand on your front lawn
/ With a radio / Playing our song / Like John Cusack
/ In Say Anything / But acting scares me / And so does
everything / You'll always be my shining star / And
I wonder how you are / And why you haven't called /
I miss the way you look at night / Standing before
me / In just your panties / I want to get lost in your
hair / I want to feel you / Like I used to / And do
you miss me? / Like I miss you / Remember our tree? /
The way I kissed you
