I sneak around to the backdoor / So I can watch her
/ I love to watch her / And some nights I get lucky
/ She gets undressed / And bares her breasts / My
heart
races out of time / Through her window she's all mine
/ And I don't even know her goddamn name / But I'm
a voyeur just the same / Beneath the bathroom window
/ I stand in flowers / To watch her shower / Sometimes
she'll dance for me / A private show / A standing O
/ Some nights I just stand there in awe / As she
removes
her lacy bra / Well maybe I'm a perverted freak / But
you can't beat free pornography
