Sunrise doesn't last all morning
The cloudburst doesn't last all day
It seems that love has up and left you with no warning
It's not always gonna be this grey

All things must pass
All things must pass away

The sunset doesn't last all evening
The night can blow those clouds away
And though this, my love, is done and must be leaving
It's not always gonna be this grey

All things must pass
All things must pass away
All things must pass
Nothing like this can last
So I must be on my way
To face another day

Now, the darkness only stays the night time
In the morning, it will fade away
Daylight is good at arriving at the right time
It's not always gonna be this grey

All things must pass
All things must pass away
All things must pass
All things must pass away
