Why are you still crying?
The pain is now through
Please, forget those teardrops
Let me take them from you

The love you are blessed with
Is worth waiting for
So let out your heart, please
From behind that locked door

It's time we start smiling
What else shall we do?
It's only a short time
I'm gonna be here with you

And the tales you have told
All the things that you saw
Have boarded your heart, please, please
Behind that locked door

And if ever my love goes
If I'm rich or I'm poor
Please let out my heart, please, please
From behind that locked door
From behind that locked door
