Hear me lord
Forgive me lord, oh please
Oh please when I ignore you
Forgive me lord
God knows that feeling I have towards you
Help me lord, please
To rise above this feeling
Help me lord, please
To love you with more feeling
At bends up the road
To the left and the right
Above and below us
At the ending,
There's no place that you're not here
Please, please hear me lord

Hear me lord
Hear me lord
Hear me lord
Hear me lord
At both ends of the road
Tot the left and the right
Above and below us
There is not place I know that you're not here
Won't you hear, hear me lord

Help me lord, please, to rise up to the highest
Help me lord, please, to put out this desire
Dear lord, please
Hear me lord, please
Hear me lord, please
Oh won't you please, please hear me lord
Oh hear me lord, my lord, my lord, my lord
Hear me lord
Now won't you please hear me lord
My lord, my lord, my lord
Hear me lord, hear me lord
