"I Really Love You"

Visit "[I Really Love You](#)" on MotoLyrics.com

Yeah, You, I really really love you
Nobody else will do
That's why I love you
That's why, why, why

Yeah you, I really really want you
Nobody else will do
That's why I love you
That's why, why, why

Well babe you know I love you so
I'd pay the world if you could know
And when I see, you coming down the street
My heart skips (a) beat

You, I really really need you
But yet you play me for a fool
Why do you do me like you do, do do,
Yeah

Well babe you know I love you so
I'd pay I'd pay the world if you could know
And when I see, you coming down the street
My heart skips (a) beat

You, I really really need you
But yet you play me for a fool
Why do you do me like you do, do do,
Yeah
