Though you sit here under the church
I can feel me
And I think that I am cursed
And I do
I do
I can only hide what I do see
She still won't look at me
Oh, you occupy my mind
I can feel you looking
Look towards the zero-time
Like I do
I do
Wasting away these moments so heavenly
Just looking at me
Let it down
Let it down
Let your heart dangle around me
Let it down
Let it all down
Let your love flow inside me
Why do you have to test me good-bye,
I can feel you in
Sunrises in you again
And I do
I do
What is it you were expecting to see?
You still look at me
Let it down
Let it down
Let your heart dangle around me
Let it down
Let it all down
Let your love flow inside me
Let it down
Let it down
Let it down
Let it down
