Heart holds mouth to words
Said it's gone beyond the line this time
Eyes twitch close, numb the lights turned out I'm out
The cold is in my bones
Said it's gone beyond the line this time
Shake a little off the deep end and
Tell me when it's over now and

I hate you
Then explode and make up
I threw it in the yard
Burned it in an ashtray
And I, I don't need you
Even though it's all made up
Put it in your box and put it

Show me how you been
Said it's been so long, I don't recall
Used to be this way
That's the way it always seems to go
Tired and walked away
Said it's far when you don't have a place to go
Where'd you go, tell me where am I supposed to go
and

I hate you
Then explode and make up
Threw it in the yard
I burned it in an ashtray
And I, ohh I don't need you
Even though it's all made up
Put it in your box and put it

Here we go, here we go again
There you go, there you go again
As the years
They go slowly bye and bye, goodbye
After you lead the way

Oh, I hate you
Then explode then make up
I threw it in the yard

I burned it in the acid
I don't need you
Even though it's all made up
Put it in, put it in
Put it in, put it in, put
I hate you, oh, I hate you
Oh, I hate you

Heart holds mouth to words
Said it's gone beyond the line this time
Eyes twitch close numb the lights turned out I'm out
The cold is in my bones
Said it's gone beyond the line this time
Shake a little off the deep end and
Tell me when it's over now and

I hate you
Then explode and make up
I threw it in the yard
I burned it in an ashtray
