"Promises"

Visit "[Promises](#)" on MotoLyrics.com

It's okay, to go and make mistakes,
It's okay to break your promises,
Your movin' on any way,
I hate the way, that makes me feel inside,
You promised me, you'll be all that I need,
I wonder why you lie,

Promises you made, comin' back to haunt you,
Don't wisper in my ear, you gotta learn to say
goodbye,
Always in the wrong, but it doesn't really matter,
Don't wisper in my ear, you gotta learn to say
goodbye,

You gave me time, to think about you and me,
I hate the way you make me feel inside,
I wonder why you lie,

Promises you made, comin' back to haunt you,
Don't wisper in my ear, you gotta learn to say
goodbye,
Always in the wrong, but it doesn't really matter,
Don't wisper in my ear, you gotta learn to say
goodbye,

Tadada (repeast while singing:)

Always breathin' cos thats what the games was
indicating,
What was playin' I was soon to be so implicated,
Now I'm through with all the lies and pictures of back
dated,
Almost lost my friendly feet, cos boy I'm operating,

Hahahaha

Yeah-eah-eah (repeats while singing:)

Promises you made, comin' back to haunt you,
Don't wisper in my ear, you gotta learn to say
goodbye,
Always in the wrong, but it doesn't really matter,

Don't wisper in my ear, you gotta learn to say
goodbye,

(Promises you make) Promises you made,
(Comin? back to haunt you) Comin? back to haunt you,
Don't wisper in my ear, you gotta learn to say
goodbye,
(Always in the wrong) Always in the wrong,
(Doesn?t really matter) But it doesn?t really matter,
Don't wisper in my ear, you gotta learn to say
goodbye,

(Promises you make) Promises you made,
(Comin? back to haunt you) Comin? back to haunt you,
Don't wisper in my ear, you gotta learn to say
goodbye,
(Always in the wrong) Always in the wrong,
(Doesn?t really matter) But it doesn?t really matter,
Don't wisper in my ear, you gotta learn to say
goodbye,

(Promises you make) Promises you made,
(Comin? back to haunt you) Comin? back to haunt you,
Don't wisper in my ear, you gotta learn to say
goodbye,
(Always in the wrong) Always in the wrong,
(Doesn?t really matter) But it doesn?t really matter,
Don't wisper in my ear, you gotta learn to say
goodbye,
