When blues, got me down  
Then I, get turned around  
I tend to, cut myself off  
From things, I shouldn't run from

It doesn't really matter  
Sometimes we run for cover  
I'm always on the outside

Stabbed me in the back  
Wanted things that I lack  
Sticking to your ploy  
Is this something you enjoy?  
Publicity and insecurity  
Just wanna be me  
It's my need to be free

Chorus

It doesn't really matter  
Sometimes we run for cover  
I'm always on the outside (on my own)  
You never seem to wonder  
How much you make me suffer  
I'm speaking from the inside

Looking right at me (at me)  
Won't receive my plea (my plea)  
Tell me what you mean (you mean)  
I'm not what's on the screen (oh-oh)  
Faking what will be (will be)  
Fighting the fatigue (fatigue)  
That's quite enough for me (for me)  
Makes me wanna scream  
(scream, scream, scream, scream, scream, scream)

Keep it to myself (Keep it to myself)

Chorus

It doesn't really matter  
Sometimes we run for cover  
I'm always on the outside

Keep it to myself (keep it to myself)  
You never seem to wonder  
How much you make me suffer  
I'm speaking from the inside

Keep it to myself  
(Keep it to myself) (on my own)

Chorus  
It doesn't really matter  
Sometimes we run for cover (on my own)  
I'm always on the outside  
Keep it to myself (keep it to myself)  
You never seem to wonder  
How much you make me suffer  
I'm speaking from the inside
